Letters to the editor

Thanks for repairs!

Dear Editor:

I would like to, at this time, thank some very special people who have done, in my opinion, a great service to Carbondale and every resident, some of whom probably don't even know it.

I am speaking of the people who, through hard work and determination, had the City Hall clock repaired so all could tell the time simply by looking at the building.

When our public officials failed the citizens of this city and let the clock go in disrepair, these civic-minded individuals took it upon themselves to raise the $3,000 necessary to fix the clock so all the residents of Carbondale, and those that pass through, might see a working clock, instead of a lifeless time piece.

Ladies and gentlemen of the Committee to Restore Carbondale City Hall, my grateful thanks for helping to fix our city clock and good luck with your restoration effort!

Signed,

An Older City Resident
(Name Withheld By Request)
